

## RACE KART SESSIONS

### THE FIRST STEP IN BECOMING A RACER

Karting Guernsey is pleased to announce the arrival of its new race karts for anyone aged **5+**. These give you the opportunity to try karting at the earliest possible age, without the need to purchase all the equipment necessary to start-up.

### ASSESSMENT SESSION

An initial assessment is compulsory and priced at **£95**. This session is conducted by one of our instructors over a 1 hour period. The session will cover the basic skills required to drive the race kart in a safe and controlled manner. Our instructors must be satisfied of the person's ability to drive safely before they are allowed to progress to the next stage.

### HOURLY SESSION

On successful completion of the assessment session we are able to offer hour sessions priced at **£85** per session or **£80** when three separate sessions are booked and paid together. The hour session gives you 60 minutes of open pit lane, with use of an instructor / mechanic to help the driving progress and give information on the maintenance and running of the karts.

### INFORMATION

- More than one kart may be run on the circuit at any time.
- Helmets, gloves, suits and neck braces are provided, where required, at no extra cost.
- Trainers should be worn during the sessions.
- Any damage caused whilst hiring the race karts and protective clothing is at the expense of the person(s) hiring the equipment and may incur a labour charge.
